U. S. PLANES CRASH ON AIR LIFT TO BERLIN

MEMBERS OF RESCUE, AMBULANCE AND INVESTIGATION SQUADS are shown standing amid the wreckage of two C-47 twin-engined transport planes that crashed to earth after a collision in mid-air, 20 miles east of Frankfurt, Germany, killing four American fliers. U.S. Air Force headquarters at Wiesbaden withheld names of the dead pending notification of next of kin. The wreckage of one ship, which dived almost vertically to earth, still was burning five hours after it came down in the corridor area.

ANNOUNCE ENGAGEMENT

MILK GOES UP

The striking point about the big jump in the price of milk is Robert and Emma Marie Dapp and Ind., announced. that the cost of this most completely "controlled" food in Penn- their 18-year-old daughter, Florence sylvania is going up just as much as those which are being left Dapp. to a free market

If anyone needs proof that price-controls can't control prices during inflation, here it is.

Milk in Pennsylvania is under not merely one set of controls, per Black Eddy, October 12, 1947, taken to the Harriman Hospital in but two-State and Federal. It has been under these for years. when the car crashed into a stone the ambulance of the Bucks County Yet it now is twice as high as it used to be, and probably will go wall. still higher. for her injuries, the father, Robert

Milk and its products, such as butter, have been driven off Freddie Ferguson was confined the Women's Society of Christian the market more than once by OPA interference; but neither to his home last week with illness. Service of the Harriman Methodist OPA nor any other government agency has been able to hold down the prices, and still keep these foods available on the milk trucks and grocery counters.

Why is milk so high? Why were the new increases made by the Pennsylvania Milk Commission? Why does the chairman of that commission insist that another one-cent increase (on Grade B milk, and correspondingly more on all other grades) is so Walter Rehm entertained at a lawn cussion of missions in Puerto Rico, necessary that it ought to be imposed at once?

The reasons are involved. They go back into the history of In the United States only that morn-bureaugratic regulation. AIR PARCEL POST

United States air mail service is 30 years old. In all this time nothing but first class matter has been carried within the country Fourth class mail-parcel posthas always seemed too heavy and bulky to be flown. Of course, anyone can send a package by air mail at the rate of five cents an ounce, whatever the distance, Thus it costs \$8 to send a 10

1,800 miles or more for \$6.65. regular air mail. Air parcel post will cost \$45.65.

Doubtless the Post Office De partment wanted to match commercial air express, which has been operating for years, with a similar service-just as it matched railway express with parcel post early in the century.

If air parcel post will be in competition with private air express companies or airlines, so is ordinary parcel post with the express companies. The latter accepted the right of the government to carry packages on land. Hence it is doubtful if there will be much, if any protest from commercial airlines against the air parcel post. After all, the government subsidizes the airlines anyway to carry the mail.

Air express has not been readily available to persons living, say on isolated rural mail routes. Th venience to all those who wish to send a package fast regardless of xpense. Repair parts for machinery, perishable foodstuffs and many other things will no doubt be given wings under the new

of increases in costs. During recent years, this resulted in the! sale of thousands of dairy cows for beef, so that the cow popu- institute with elementary teachers lation today is much less than formerly.

Several times during the war, OPA butted into the grain market, usually for the purpose of arbitrarily lowering prices. This didn't mean that the grains were sold at the lower rates. It meant instead that thereafter farmers held the grains in their barns, or found means to use them up on their farms—for fattening hogs, raising chickens, etc., etc.

Since very few dairies raise all the food they need, they have to have a supply of grain from the markets. Everytime this sup- holidays; January 28, no sessions to have a supply of grain from the markets. The Courier is delivered by carrier in Bristel, Edgely, Tullytown, Croylon, Bridgewater, Andalusia, West don, Bridgewater, Andalusia, West Months, Bridgewater, Andalusia, West don, Bridgewater, Bridgewa

the public always winds up paying more for the job, in the long run, than they save in low prices. They have paid several times over for all the war-time savings in meat-paid for it in taxes, paid for it in salaries to otherwise unneeded Federal employes.

paid for it in high prices, paid for it in reduced value of money Milk prices in Pennsylvania are, technically, under the regulation of the State's own milk board. The U. S. government has no direct responsibility over them. Moreover, Pennsylvania, considered alone, has no serious milk shortage.

Why then was the price boosted here? And why is there such a strong implication that another boost is just around the

The blame, if that's the word, lies at the door of the Federal milk control board.

Taken as a whole, there is a threatened scarcity in the New York milk "pool." The only way to bring more milk to that market was to recognize the increased costs of production by raising the price to the farmer.

Now, so far as eastern Pennsylvania is concerned, it makes little difference to the dairyman whether he sells to the Philadelphia pool or the New York pool-he will sell wherever the price is best. Moreover, there are many other places he can sell milk, if he can get more for it-to canners, to ice cream makers,

The moment that the price at New York goes higher than that in Philadelphia, the supply to the Quaker City will begin drying up. Therefore the Pennsylvania board members had no choice. They had to impose the present prices to make it worth while for dairymen to keep on selling milk locally, instead of shipping it all to New York

And the reason the milk board's chairman insists that another raise is inevitable is really quite simple. The result of the state increases is to give the Pennsylvania farmer \$6.24 a hundredweight for his milk. The New York price will go to \$6.30 on October 1. If that difference means that the Pennsylvania supply is diverted to New York, the only way to bring it back again will be for the milk board to raise the local price to meet it.

And if costs of production keep on rising, or if the "experts" at Washington think up some new scheme to further reduce the number of cows producing milk, it will all have to be done over

again within a few months. Where does all this add up? It is, or ought to be, the best possible proof that it is a waste of time and the taxpayers money for the government to try to "control" prices.

Control can come out only in one of two ways. If prices are forced down artificially low, then the supply dries up. Shortages pound package 1,800 miles or are produced which may be years in correcting themselves. An unhappy situation is made infinitely worse.

Or, as in the case of milk, the "experts" simply tag along Beginning September 1, air after the economic forces involved, and permit the prices to do parcel post will be inaugurated by what they would do anyway-that is, accommodate themselves the Post Office Department. Then to the costs of production, and the laws of supply and demand. Hiring bureaucrats to do that is just as sensible as it would a 10-pound package can be sent be to hire a lot of Federal employes to go round being sure that

rocks would fall to the ground when dropped. The rate at present for the largest | If, as will always happen in the long run, prices find their package, 70 pounds, is \$7.97 by natural level on the basis of cost of production plus supply-andregular parcel post and \$56 by demand, then what earthly good is there in employing great

staffs of government experts to supervise the process The sooner the American people give up the notion that the government can let them buy food and other things for less than it costs to make them, or without competitive bidding for scarce commodities, the sooner our economic structure will get back on a sound footing-and the sooner prices will return to normal.

Today's Quiet Moment

By Rev. Bickley Burns Brodhead Bensalem Methodist Church

Spirit Eternal, Thou inhabitest

eternity yet will abide in every heart that seeks Thee, fill us with Thy presence this passing hour. All the earth is full of thy glory, but too often we do not see. Thy Word has come to men through each night of doubt and sorrow, but we have neglected to look for that Light which no darkness can put out. Grant us vision to search for the things that matter most, and strength to lay aside each sin which doth so easily beset us, that day by day we may see Thee more clearly, love Thee more nearly and follow Thee more nearly through Jesus the Christ, in whose name we pray. Amen.

Re: Union Blackball of FRED COCKET.

MOTION:

Since all charges, proceedings, and action taken in this matter were illegal, and unjustified, that Fred Cocket be cleared of all charges, the blackball removed, his fine repaid, and Cocket be restored on a continuous good-standing basis.

That the proper necessary steps be taken to notify all concerned of this action and that all data pertaining to this matter be stricken from the records. So Ordered.

Official notice paid for by the Local 541, I. U. O. E., A. F. of L., Bristol, Pa.

MOLL'S HOME-RUN AIDS CROYDON TO DEFEAT TERRACE

"Bill" Moll's home run aided the Croydon A. C. team to beat the on September 7th. Bristol Terrace nine, 8-2, last evethe final playoff series of the Bristol Youth League. Each team has now won two games with the fifth game scheduled for Monday evening on Memorial Park field.

Moll's four-base clout came in the second inning with two on base to climax a five-run rally. The five tallies were really enough for the Croydonites to win but to make certain they added three more in the third inning.

Two were out when the Croydon feam started its uprising. Both Holgate and Hedrick had grounded out. But Rosser singled and Eisenbrey walked. Morrell got on base via a hit and Dominick also singled. Moll then came through with his homer

"Jimmy" Morrell was the winning hurler, he allowing the Terrace team three hits. He had six strikeouts and walked five batters. He also hit another. But on several occasions, Morrell's mates came to his aid.

The losing twirler was Billy Hibbs who ran into two bad innings. the second and third. Of the seven hits, Hibbs permitted, five came in the second inning. Four walks, an error, and a single by Dominick gave the winners their other three runs in the third

Terrace scored a run in the first on hits by Braam, Barbetta and Hibbs and a walk to Rich. Its other tally came in the third on a walk, a

Joe Dominick led the batters with three singles in four appearances at the plate.

FIRST OF SEMI-FINALS TO BE PLAYED TONIGHT

The first game of the semi-final series of the Bristol Suburban League is scheduled for Memorial Park field this evening as the Lang-Club, starting at six o'clock sharp.

Langhorne and the Democrats have been the surprises of the season thus far. These two teams finished fourth and fifth in the final standing but won their quarterfinals series to enter the semi-finals

Langhorne Legion won two straight games from the Hibernians. The Democrats had a harder time with Goodwill Hose, the series going to three games before being decided. After splitting the first two, the Democrats won the third game and series.

NOT MAGICIANS!

It is true that during the last 14 years we have built up the largest independent petroleum marketing organization in Bucks County. That in itself is not a magical performance, but it is conceded to be a notable one.

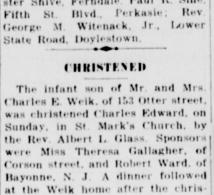

No, we are not magicians, but we are mighty proud of the service rendered to our contracted fuel oil customers during the past heating season. They appreciate our successful efforts to keep them fully supplied and we shall use every effort in the coming winter to keep up our record-never a cold home, business place or factory.

To our customers to whom we have mailed contracts: If you have not signed your contract for 1948-49, please do so immediately, so we may plan accordingly to protect your supply during the coming season as the fuel oil situation is still critical Above all, be prepared! Fill your tank now!
